Importance: High

Janet,

We are pleased to share this revised draft version of the Draft TAR. This draft has been provided as well to the career staff at NHTSA and CARB for submission to their leadership.

Below we summarize the key changes made since the April 15 draft you previously reviewed. We have addressed your comments on that version, and the CARB staff have also made changes to address their leadership's comments. The NHTSA staff has not made us aware of specific changes based on any NHTSA leadership comments.

Per our schedule, we're asking the EPA, NHTSA, CARB leaderships to provide comments by end day on **Wednesday, June 8**, so that we can compile changes for the OMB package, to be submitted on Monday, June 13.

Below is a summary of key changes since the April 15 draft. We would like to focus your attention on the sections show with yellow highlight below.

Thanks for your support,

The OTAQ MTE Team
